

8 December 2011

Mr Jason Zafry
Wallbridge and Gilbert Engineers
60 Wyatt Street
Adelaide SA 5000

Dear Mr Zafry

Road Safety Audit Training Course, November 2011

Recently you participated in the South Australian Training Course for Road Safety Auditors, run jointly by the University of South Australia and the University of Adelaide on 14-17 November 2011. The assessment of your project reports and the examination paper is now complete, and I can inform you that you achieved an overall mark of 71 per cent. As the pass mark for the assessment is 60 per cent, this means that you have qualified for initial registration as a Road Safety Auditor in South Australia. Your name is being provided to DPTI for inclusion on the register of accredited road safety auditors. Under the national guidelines you are also qualified to act as a Road Safety Auditor in the other states.

Congratulations on your results. We all feel that the course was a great success, due largely to the active, constructive and wholehearted participation by the whole group. Much was learned by all who took part. Road Safety Audit will be a vital feature of the road planning and design system in Australia for the foreseeable future, and you will have a significant and special input to make to the system as an accredited auditor.

If in the future you wish to gain listing as a Senior Road Safety Auditor, you will need to complete three additional audits under the guidance/leadership of a Senior Road Safety Auditor (of which at least two of the audits must be design stage audits), in keeping with the national guidelines discussed in the workshop.

A certificate indicating your successful completion of the SA road safety audit training course is enclosed.

Yours sincerely

Professor Michael A P Taylor
Professor of Transport Planning
